

Ani Jamyang of Yulokod Studio would like to acknowledge all of the wonderful Masters, Artisans, Sangha and Family who made these first attempts at making a Tibetan Buddhist Thangka in stained glass a joyful possibility.

1st and foremost I would like to Thank my Root Guru Ven. Khenpo Sonam Tobgyal Rinpoche, Spiritual Director of Riwoche Temple of Toronto, who over a period of some 12 years has introduced me to the Dharma and to the intricate, perfected world of Thangka painting and its symbolism. Thank you for your great patience, your Love, your prayers and your enthusiastic support.

A Special Thanks to Kyabje Nyoshul Khen Rinpoche who insisted that even stained glass artists could become Bodhisattvas.

Thank you to Dr. Trogawa Rinpoche & Shakya Dorje, who insisted that this project & my work were important and that I must continue for healing and benefit to all.

Thanks to Ven. Khandro Rinpoche for setting an example for all women who seek the spiritual path.

Thanks to the many artists that work in the field of Tibetan Sacred Art who advised, supported & encouraged me with their vision & understanding.

A special Thanks to the Waterloo Sangha for being brave enough to order the first Tibetan Buddhist Thangka in Stained Glass.

All work at Yulokod Studio is dedicated to the benefit of all sentient beings ...

Thank You for taking an interest in my work and vision. A portion of all proceeds raised goes towards Tibetan Refugees in Exile.

Upcoming Projects:

Below is a section of the layout for a mandala circle which will portray Guru Rinpoche with Canadian trees in the background. The size of this series will be approximately 25 inches in diameter, a small enough size for most private shrines and sanctuaries. This will be a limited edition and will feature various deities & yidams with a similar cohesive background treatment. Inquiries most welcome. Custom Designs and Tibetan Buddhist Thangkas are a specialty. Special financial and schedule arrangements are available for Buddhist Temples and Dharma Centres.
